## 2006 Limited Run HO Scale

### Nashville, Chattanooga & St Louis Ry 55-ton Two-Bay "USRA clone" Open Hopper, Series 47100-47224 Class HM-11

Cumberland Division's 2006 Limited Run Car Project is a series of HO scale models of Nashville, Chattanooga & St Louis Ry 55-ton two-bay "USRA clone" open hopper cars, series 47100-47224 Class HM-11. These cars were originally built in 1926 by American Car & Foundry at their Madison IL plant. Our models are produced by Accurail using their USRA two-bay open hopper car kit.

The run includes 6 car numbers - 47102, 47125, 47161, 47188, 47204 & 47223. The cars are painted Oxide Red with white lettering/graphics.

Since you have ordered cars from us in the past we're sending you this notice/order form so you can order before our publicity hits the commercial model RR press. At least 120 cars of each number have been produced. These kits are priced at **\$12.50 each** or a **set of all 6 numbers for \$72.00**. All prices are postpaid.

Please complete the information in the form below. Enclose a check or money order payable in US dollars only to Cumberland Division SER-NMRA and mail to: J Allen Hicks 833 Kenny St Gallatin TN 37066-3535
