Day Out With Thomas - 2009

By **Bob Hultman**

Well, DOWT has come & gone from TCRM for the 8th consecutive year. Notable this year are the slightly more moderate temperatures and ticket sales pretty close to last year's, although the gift shop purchases per person are yet to be determined. I want to thank everyone who worked before, during or after the event to make it the success it was. No one got really hurt, nothing of real significance was lost (there is a Thomas sippy cup in the lost-found box) & our customers seemed happy with DOWT 2009. Everyone who worked the event is welcome to the Life After Thomas dinner this coming Thursday at Ryan's Steakhouse.

Excursion Train News

HO Model RR News

By **Bob Hultman**

Cumberland Division set up a large HO modular RR for the TN State Fair this year. The Fair coordinator changed the booth layout in the Exhibitors Bldg such that visitors are routed past every booth if they come in the south entrance and were going to the Annex Bldg. Our RR is parallel to the long wall of the Exhibitors Bldg. The RR is about 34' wide & 78' long. **Len Hollinger** calculated the distance of the main tracks at about 230+ feet, or almost 4 HO scale miles. Modules in the set-up starting at the northwest corner are-

Cumberland Division- Outside Corner
Leroy Nessen- Mt Yucca- 16'
Cumberland Division- Drop-In Module- 4'
Quincy Styke III- Styrofoam Desert- 4'
Cumberland Division- Outside Corner-
Cumberland Division- Sircy Yard 36'
Don Garrison- Switch Haven 16'
Len Hollinger- Rockville 16'
Cumberland Division- Outside Corner
Cumberland Division- New Cumberland Yard- 24'
Cumberland Division- Outside Corner
Robert Marsmaker- 24'
Cumberland Division- Outside Corner
Cumberland Division- Geezer Gate- 4'
Cumberland Division- Inside Corner
Jack Sircy- Sircy Circus- 12'
Cumberland Division- Inside Corner
George Gilbert- Forge Creek 4'
Cumberland Division- Outside Corner
Quincy Styke III- Stykeville- 12'

The State Fair runs thru Sunday Sep 20.

NRHS News

By **Herb Roth**

Bob - Drove thru Willow St this past Sunday afternoon (Sep 6)- looked like TCRM had a large throng. The guys on the parking and road control duty were doing a great job.....Here's my column.....

Here is some information from a note in TRAINS concerning the Nov 2007 collision in Chicago's South Side between Amtrak "Pere Marquette" and a NS freight. The Amtrak engineer misinterpreted a wayside signal, a "restricting signal", which required him to operate at a slow speed and be prepared to stop short of other trains. However, the engineer thought it was a "slow approach" signal and proceeded at a faster speed than he should have. The result - he plowed into a stopped NS intermodal train. The National Transportation Safety Board recommended standardized signaling and installation of positive train control. The crash caused 70 injuries.
